4. Comments:

4.1) Please identify what you perceive to be the real strengths and weaknesses of this instructor and course.

- Great professor who explains the behind the scenes process involved in designing and running research projects, surveys and participants. He is very forgetful so don't get offended, he is not being mean. Research is conducted by following protocol and research assistant's feedback is always welcomed and encouraged. Training is done by experienced peers so it is friendly and hands-on. Overall it is great!!

- Strengths:
  - Genuinely helpful in answering questions.
  - Caring about students' learning.

- This research lab has taught me valuable lessons about the research world and how science gets done. It provided me hands on experience conducting research and Professor Fessler outlines the important theory behind the studies we conduct.
